On a call for vote by Clerk Doane, all members present voted "Yea".

Subject: County Business – Magistrate Scott Bates not present. Mayor Stephens asked if anyone had any issues that he should address with Magistrate Bates.

Subject: Noise Ordinance – Rob Goss who lives at 13 Lone Oak Drive was present to discuss a concern with noise he is having with Scriber's Station on Elm. Mr. Goss reviewed a letter he sent to Mayor Stephens addressing his concerns with Scriber's Station on Elm Street which backs up to his property. Mr. Goss stated when the restaurant was in the planning stages he and some of his neighbors spoke with Jason Scriber concerning the opening and were assured by Jason that it would be a nice country cooking family place with occasional live bands a couple of times a year. The occasional couple of times a year have turned into nearly every weekend with the addition of the bar in the rear of the establishment. Even when the bands are performing inside and the doors and windows are open they may as well be performing outside as the noise is unbearable. If he has his windows open he cannot even hear his own television. If the band is outside it is just deafening. The rowdiness of the crowd is also a problem as screaming and yelling of obscenities in the back parking lot is a concern. Safety for his family is also a concern as individuals throw liquor bottles over into his property. He has two small kids and is afraid to let them play in their own yard. The police have tried to help with additional patrols but not much improvement has been noticed. Mr. Goss stated he is not here to try and hurt the business but wants them to do as they said they would. He feels that the restaurant has become more of a loud and rowdy bar, especially on the weekends. Mr. Goss also stated he works a rotating schedule and can feel the vibrations in his bedroom. Mr. Goss stated he would like to see our noise ordinance changed to address some of these problems.

Mayor Stephens asked for suggestions on how to change the ordinance or enforce the one we have which is not very detailed. Member Mason stated Carrollton has an ordinance which states that the decibel reading from the band to so many feet away cannot be above a certain amount. Chief Duncan stated we would have to be able to certify the decibels in court. Attorney Brammell stated there is a KRS statute 224.30.050 to regulate noise with criminal penalties attached and that an individual could file a complaint with the County Attorney based upon this KRS. We could also adopt an ordinance which would be a little stronger than what we have.

Planning and zoning Officer Jody Rucker stated that there are noise issues all over the County with nothing to protect the citizens and he was told that no noise ordinance would ever be enforced in Henry County.

Mayor Stephens stated that the following are the options to try and relieve this problem – 1.) Citizens could file a complaint with the County Attorney based upon the above listed KRS; and/or 2.) The City could get copies of other ordinances that specify noise decibels with information on how to measure and how they hold up in Court.

Subject: Drainage Problems Caused by New Construction – Roy Rose who lives at 139 Fairview Drive was present to discuss a drainage issue being caused by the new construction of an addition to the home next to him. The contractor, Keith Perry, has moved the dirt on this property and now has all the water going onto Mr. Rose’s property. Mr. Rose stated he shoveled mounds of dirt off his fence and then Keith leveled it all toward his property. He has drastically changed the elevation on this property which has caused flooding everywhere. Water is now going under his home. Mr. Rose stated he has lived there for 20 plus years with no problem until this contractor went to work. All the driveways are flooded and filled with mud from the recent heavy rain. The drainage is now messed up all the way down the street. Mayor Stephens presented pictures to council of the flooding and problems now created. Attorney Brammell stated this is an issue between the property owners and not a City issue. Mr. Rose stated he feels this is an erosion of the streets as well and should be a City concern. Public Works Smith stated that right of way has been changed and if the extra dirt now present would come out everything should be fine. Mr. Rose stated he has even offered to pay for gravel if the dirt is removed.

Attorney Brammell stated Mr. Rose should have an attorney send a letter so that a response can be received; and if not Mr. Rose should still have a good case with all the pictures he presented tonight. Mr. Rose stated he has already asked one attorney in the County to help him out who turned him down due to his friendship with Mr. Perry. Attorney Brammell gave Mr. Rose some names of attorneys who might help. Mr. Rose asked how far out he could put a fence. Mr. Rose was advised to check with planning and zoning on this.

Member Armstrong stated she believes we have a problem with this drainage too. Attorney Brammell stated that the City can address the right of way issues but that is all.

Subject: Complaint on Police – Jody and Melinda Rucker of Pleasureville were present to complain about the way their 17 year old daughter was pulled over and treated for allegedly crossing a yellow line in front of the Dollar Store on Elm Street when leaving work from Scriber’s Station on Elm. Mr. & Mrs. Rucker stated the police officer followed her 2.2 miles before pulling her over. Their daughter stated she was chased down with bright lights flooding her car and that she was also tail-gated by the officer. She originally thought some of her friends or a drunk driver might have been doing this but when it persisted she got scared. The blue lights were not put on until she was in a sharp curve on Hillspring Road. She pulled over in Mary Bryant’s driveway beyond the curve in order to avoid being in a dangerous location. Mr. Rucker stated the fact that the officer claimed to see his daughter cross the line all the way from Vernon Avenue seems to be possibly a concern as well. They want to know why she was bright lighted, tail-gated and followed so long before being pulled over. Mr. Rucker quoted several stats on number of car lengths required and rules on bright lighting. They feel this officer

created a dangerous situation for their daughter. She would have pulled over had the blue lights come on. Due to this incident they have now instructed her not to stop unless in a well-lit area. The first thing the officer asked her was “are you drinking”. Mayor Stephens stated he thought they were just upset over their daughter being stopped at all. Mr. & Mrs. Rucker stated no they are not, but are upset over the way it happened. They have not filed an official complaint with Chief Duncan and may not as they are afraid of retaliation. Mayor Stephens stated he does take all complaints seriously but the procedure of filing the claim must be followed which means it has to go to the Police Chief first. Ms. Rucker stated she feels the officer was being aggressive toward her as well when she spoke with him. Mayor Stephens stated that he did instruct the officer in question to contact the Police Chief first thing the next morning after the incident and that he (Mayor Stephens) did follow up with Mr. Rucker. Mrs. Rucker stated she feels retaliation is a concern. Member Meadows asked Chief Duncan why the officer would go that far before pulling someone over. Chief Duncan stated he cannot answer that question right now. Member Meadows asked how far our jurisdiction goes. Chief Duncan stated countywide. Mayor Stephens told Mr. & Mrs. Rucker that if they want to file a formal complaint to please do so and it would be followed up on.

Discussion followed with Clerk Doane stating this would be an undue burden on her office staff each month. Attorney Brammell stated we would also have to have the renter sign an authorization to release this information. Clerk Doane stated she felt it should read that the landlord could call us each month if they choose to rather than us calling

every landlord in town. Attorney Brammell will look at revising the contract for possible amendment.
